

We can't thank you enough for all that you have done for our family to help our son learn and grow over the last 2 years! It was such a delight for us to watch him transform under the care and warmth of your instruction. We saw our little man's confidence break through, and it made us so happy to see how excited and enthusiastic he was every day to go to school, learn new things, and play with his friends. What a great start to prepare for big kid school!

We wish you the best with New Heights.

Krista M

*New Heights Preschool is extraordinary. The teachers have an excellent curriculum and years of experience. They are empathic and firm and enthusiastic and infinitely patient and take special care to address each child's individual needs. Our son was the alum of 3 preschools because either we or the school moved & in our experience, New Heights is *exceptional*. He blossomed both intellectually & emotionally there.*

Mythri A.

New Heights is a wonderful school, providing a wide variety of daily activities both geared towards learning and fun. After two years with Ms. Shari there is no doubt our child is ready for Kindergarten.

Bonnie E

We have been extremely pleased with our experience at New Heights Preschool. We researched all the preschools in the area and found this one to be the best by far for our family. They do a really good job of teaching the kids as a class, while providing specialized one-on-one attention as well. All four of our children have been taught by either Ms. Shari or Ms. Kelly, and they have always been more than prepared for kindergarten when they were done. We are very impressed.

Chris C.
